

It's safe to say, We probably wouldn't be broadcasting this show without the music of Jimmy Buffett. He's released over 30 albums since he started, 8 of them are Gold Albums and 9 of them Platinum or Multi Platinum. The man is a machine. When you have achieved as much as Jimmy has, you tend to get a lot of admirers and, in this case, a lot of songs written about you. That's what this week's show is all about! We're playing all the dedications and songs written in appreciation of the man, who many believe, started it all! Tune in Wednesday at 7pm!
